Dear Parent or Caregiver,

Your child will be using Education Perfect (EP), as an essential and comprehensive digital teaching and learning platform for the school year. Education Perfect is an interactive resource which maximises student learning in the classroom, for homework and exam preparation and revision. EP has been comprehensively assessed and chosen by the teachers and school leadership as a core teaching and learning resource.

Students at Parkdale Secondary College will have access to the following curriculum aligned subjects: Languages and English.

What is Education Perfect (EP)?

Education Perfect is a comprehensive digital teaching and learning platform used by over 1.2m students and 3,000+ schools worldwide. EP has been successfully used by many leading schools with notable impacts on student motivation and grades.

- **EP English & Literature** is designed to support the development of a student's English proficiency and literacy, with dedicated resources on grammar, punctuation, vocabulary, comprehension, spelling and writing structures.
- **EP Mathematics and Science** enables students to consolidate specific mathematics or science concepts and skills anytime, anywhere. Students can find content from a range of year levels to help them either catch up, strengthen or extend their learning in Mathematics and Science.
- **EP Languages** enables students to develop all four skills of language learning – reading, writing, listening and speaking. All recordings and videos use native speaker pronunciation and the content is differentiated into Beginner, Intermediate and Advanced levels.
- **Digital Technologies and Health & PE** is designed to support students in consolidating skills in these subject areas. Students can access a range of content across multiple topics to assist them in learning, consolidating and extending their knowledge and understanding.

Your child's school will use EP as a core teaching and learning tool to further enhance classroom content. Their teachers will use EP to:

- Prescribe holiday homework
- Set pre-class and post-class consolidation tasks
- Provide differentiated instruction
- Set assessment preparation and exam revision
- Conduct assessments
- Encourage student self-study
- Provide feedback to students
- Engage students via competitions
